- Eine weltweites Vertriebsnetz mit über 150 Händlern.
- Más de 150 distribuidores a través del mundo.
- Più di 150 concessionari nel mondo.

# A distinctive brand

Henri Jeanneau's passion and commitment to quality boat building began in 1957. From the first artisan-crafted runabout to today's precision-manufactured sail and power boats, that passion and commitment is now shared by our 2500 employees and our network of over 300 distributors world-wide.

Our customers help drive the innovation and quality that are the hallmarks of Jeanneau. As experienced sailors, their input enables our design and production teams to quickly implement new ideas and enhance proven ones. The result, as you'll see, is a way of creating boats of extraordinary quality, value and timeless beauty.

## Design The Technology of Beauty

The strength of Jeanneau can be seen in the beauty of our boats. World-renowned designers and architects work with our in-house teams from the inception of each project and provide their expertise and innovative ideas. The result of this partnership: captivating and inspiring designs that stand the test of time.

## Performance

A Jeanneau must be responsive, agile and fast. Performance encompasses not only speed but exceptional handling under power, smooth passage through heavy seas, confidence and control. Every experience onboard a Jeanneau is enhanced by our well-balanced sail plans, modern hulls, high-end sails and quality deck hardware.

## CATIA®

Each new Jeanneau is comprehensively designed via the powerful CATIA® design software. CATIA® allows Jeanneau to design a better boat with more attention to detail in a shorter timeframe.

## Research & Development

A specialized Research & Design facility at Jeanneau houses 130 engineering specialists. This facility is unique in the boat-building sector, providing R&D resources usually available only to large aeronautical and automobile companies.

## Construction The Engineering of Beauty

The Jeanneau Formula for success: Combine 50 years of practical boat building savoir-faire with the latest construction technologies. Invest in and continuously improve technologically advanced factories with ergonomic production lines, computerized processes and efficient logistic supply chains. Translate the efficiencies into lower costs and higher quality for the customer.

## Superior composite technologies

20 years ago Jeanneau developed a closed moulding process called Prisma Process. This technological edge yields a higher-quality part with a lower weight, but also reduces airborne VOCs by 90% as compared with traditional GRP moulding, thus making it a much greener way to produce boats.

## A passion for wood

Rich interior woodworking has always been a signature of Jeanneau quality. Using fine quality hardwoods and marine composites, computerized varnishing machines and CNC routers provide precision parts finished to industrial tolerances. These are then individually assembled with the experienced eye and hand of the craftsman.

## Economies of Scale

No other builder enjoys the economies of scale available to Jeanneau. As an integral part of the world's largest sailboat building group, Jeanneau benefits by having access and influence with top-shelf suppliers. This allows us the highest quality materials and components, sourced from the leading suppliers, at appreciable savings to our customers.

# The Timelessness of Beauty

## Quality

### The Timelessness of Beauty

Our total quality control system tracks a product through the entire production process and beyond. From laboratory tests of each batch of resin to tank testing to customer satisfaction questionnaires and frequent supplier reviews, we continually seek ways to improve our boats.

## Dependability

Quality starts with the best materials and components. Aboard a Jeanneau you will find equipment from the leaders in each field, because we only use suppliers that share our commitment to quality control and product excellence. These premium suppliers also help ensure servicing of your boat's components world-wide.

## Safety

Peace of mind is part of the Jeanneau experience, which is why safety is standard. We conduct extensive finite element analysis of our structural systems, design secure handholds throughout, utilize large hatches that double as emergency egress routes, and only use the highest quality deck fittings. This helps create the legendary Jeanneau seaworthiness that comes with 50 years of experience in building offshore boats.

As an ISO 9001 company, the Jeanneau's building process is certified to the highest international standards. Each new sailboat is thoroughly tested throughout the building process and each receives additional tank testing where all systems are put through their paces.

## ISO 9001

As an ISO 9001 company, the Jeanneau's building process is certified to the highest international standards. Each new sailboat is thoroughly tested throughout the building process and each receives additional tank testing where all systems are put through their paces.

## International Standards

All Jeanneau boats carry the CE certification which ensures strict standards for stability, safety and structure. In addition, all boats 12m and over are certified by the Bureau Veritas, an independent engineering certification. This certification includes every part of the conception and building process.

## Satisfaction

### The Enjoyment of Beauty

At Jeanneau, we know that delivering excellent boats is only the beginning; excellent customer service must follow. When you purchase a Jeanneau you become part of our family.

## Warranty & Service

Jeanneau has an established and professional distributor network in 50 countries, experienced and regularly trained on the Jeanneau product line and new models. Distributors are aided by an innovative intranet program to facilitate the delivery of spare parts in the shortest time. In addition, each of these distributors is prepared to advise our clients and provide them with the exemplary service they should expect from a major boat builder.

The Jeanneau experience is unique. No other builder can offer the same level of cutting-edge design, superior finish, performance and customer satisfaction - all in a competitively priced package.

Now, docking is child's play !

Les manoeuvres de port deviennent un jeu d'enfant !

Die Manöver im Hafen werden zum Kinderspiel

Las maniobras de puerto se convierten en un juego de niños

Le manovre in porto diventano un gioco da bambini

The Jeanneau sailboat models are perfect for cruising the open waters with family and friends. But whether at home or abroad, manoeuvring at port is often difficult exacting. This is why Jeanneau, together with the ZF Group, has developed an entirely new system, called 360 Docking.

Les voiliers Jeanneau sont formidables pour parcourir les océans en famille ou entre amis. Mais les ports sont souvent une difficulté pour manœuvrer. C'est pourquoi Jeanneau a mis au point avec le groupe industriel ZF, un système totalement nouveau que Jeanneau a appelé le 360 Docking.

Jeanneau-Segelboote sind einfach fantastisch. Schon allein, weil Familie oder Freunde auf See immer dabei sein können. Manöver im Hafen sind im allgemeinen jedoch da und dort ein Handikap : Jeanneau hat in Zusammenarbeit mit der Unternehmensgruppe ZF- Marine die Lösung gefunden, und zwar durch ein ganz und gar neuartiges System, das 360-Docking.

Los veleros Jeanneau son ideales para recorrer los océanos en familia o con amigos. Sin embargo, en los puertos es a menudo difícil de maniobrar. Por ello Jeanneau ha desarrollado con el grupo ZF, un sistema completamente nuevo que Jeanneau ha bautizado el 360 Docking.

Le barche a vela Jeanneau sono formidabili per navigare con la famiglia o gli amici. Ma i porti spesso sono difficili per le manovre. Ecco perché Jeanneau ha messo a punto con il gruppo ZF, un sistema totalmente nuovo chiamato 360 Docking.

**The concept is simple: the engine is coupled with a pivoting sail drive, capable of rotating 360°.**

The joystick transmits the commands to a control box, which uses the autopilot to lock the helm. Then, a simple movement of the joystick controls the orientation and the thrust of the pod, as well as the bowthruster.

**Le principe est simple : le moteur est couplé à un sail drive rotatif capable de pivoter sur 360°.**

Le joystick transmet les consignes à un ordinateur qui utilise le pilote automatique pour bloquer la barre. Puis régule l'orientation et la puissance du pod ainsi que la mise en œuvre du propulseur d'étrave.

**Das Prinzip ist denkbar einfach:  
Der Bootsmotor ist an ein Saildrive mit einem im 360°-Winkel drehbarem Pod-Antrieb angeschlossen.**

Der Joystick überträgt die Anweisungen an einen Bordcomputer, der über den Autopiloten das Ruder blockiert. Er steuert die Richtung und die Leistung des Pods sowie den Bugpropeller.

**El principio es sencillo: el motor está acoplado a un sail drive rotativo capaz de pivotar 360 °.**

La palanca de mando envía instrucciones a un ordenador que utiliza el piloto automático para bloquear la caña. Luego ajusta la orientación y la potencia de la cola y la puesta en marcha del propulsor.

**Il principio è semplice: il motore è accoppiato ad un sail drive rotante capace di ruotare su 360°.**

Il joystick trasmette le indicazioni di manovra ad un computer che utilizza il pilota automatico per bloccare il timone. Poi il joystick regola l'orientamento e la potenza del pod nonché il funzionamento dell'elica di prua.

No matter its size or weight, the boat will obey your every command.

Quel que soit sa taille et son poids, le bateau vous obéit au doigt et à l'œil.

Und ganz gleich welche Größe oder Gewicht das Boot hat, es folgt jedem Ihrer Order.

Sea cual sea su tamaño y peso, el barco le obedece al milímetro.

Qualunque sia la sua dimensione ed il suo peso, la barca risponde immediatamente.

### This revolution technology is only available from Jeanneau.

The 360 Docking system has been developed in several different sizes in order to adapt it to sailboats from 40 to 57'.

### Esta revolucionaria tecnología se encuentra disponible exclusivamente en los barcos Jeanneau.

El sistema 360 Docking está disponible en diferentes tamaños para adaptarse a veleros Jeanneau de 40' a 57'.

### Cette technologie révolutionnaire est exclusivement disponible chez Jeanneau.

Le système 360 Docking existe en plusieurs tailles pour s'adapter aux voiliers Jeanneau de 40' à 57'.

### Questa tecnologia rivoluzionaria è disponibile solo sulle barche Jeanneau.

Il sistema 360 Docking esiste in diverse dimensioni per adattarsi alle barche a vela da 40' a 57'.

### Diese revolutionäre Technik finden Sie nur bei Jeanneau.

Das 360 Docking-System gibt es für Jeanneau-Segelboote von 40' bis 57'.

- **POD60 : 40' / 42'**
- **POD90 : 43' / 49'**
- **POD120 : 50' / 54'**

Sun Odyssey  
**44<sup>DS</sup>**

The Sun Odyssey 44DS is no less than a revolution. The combination of a Philippe Briand designed hull and an interior and deck design by Franck Darnet has yielded a boat that is not only a joy to sail, but exceptionally comfortable. All sheets are lead aft to the helm to make sail handling very simple for a short-handed crew.

Le Sun Odyssey 44DS est une vraie révolution. La combinaison d'une coque dessinée par Philippe Briand avec un intérieur et un pont signés Franck Darnet donne un bateau à la fois plaisant à naviguer et exceptionnellement confortable. Avec ses écoutes ramenées aux postes de barre, tout est pensé pour que ce voilier soit facile à manœuvrer et sécurisant, même pour un équipage réduit.

Die Sun Odyssey 44DS ist tatsächlich eine Revolution. Durch die Kombination eines von Philippe Briand entworfenen Bootsrumpfes und dem Deck und der Innenausstattung, die von Franck Darnet gezeichnet wurden, entstand ein Boot, mit dem es nicht nur eine Freude ist, zu segeln, sondern das auch wunderbar komfortabel ist. Alle Bedienleinen laufen bei den Steuerrädern zusammen, was die Handhabung der Segel für eine kleine Crew besonders einfach macht.

El Sun Odyssey 44DS es una auténtica revolución. La combinación de un casco diseñado por Philippe Briand con el diseño del interior y de la cubierta de Franck Darnet, ha dado como fruto un barco que no tan sólo es una gozada navegar con él sino que también es excepcionalmente confortable. Con sus escotas reenviadas al timón, todo ha sido pensado para facilitar las maniobras de navegación con una tripulación reducida.

Il Sun Odyssey 44DS è una vera e propria rivoluzione. Il connubio tra lo scafo progettato da Philippe Briand e il design di interni e ponte firmato Franck Darnet ha dato vita ad un'imbarcazione non soltanto piacevole da condurre, ma anche straordinariamente confortevole. Tutte le scotte sono portate a poppa verso il timone, per rendere il piano velico facile da manovrare anche in equipaggio ridotto.

Sun Odyssey

44 DS

Down below the large Deck Saloon windows bathe the walnut interior in light. Rich materials are found throughout. High-quality work tops in the galley and toilets, stainless steel details, white-lacquered cabinets and rich upholstery are unlike anything seen on boats in her class. The Sun Odyssey 44DS is truly a step above.

A l'intérieur, les larges hublots Deck Saloon inondent de lumière les boiseries en noyer. Partout les matériaux les plus nobles ont été sélectionnés : plan de travail de haute qualité dans la cuisine et les toilettes, nombreux détails en inox poli, équipets laqués blanc, sellerie luxueuse. Le Sun Odyssey 44DS est vraiment un cran au-dessus.

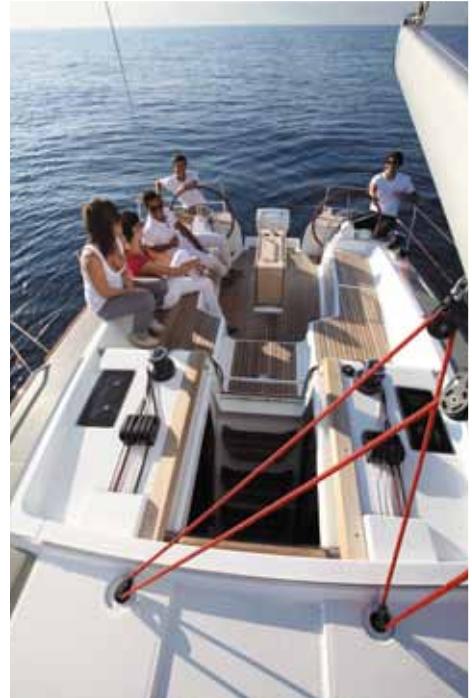

Der darunterliegende, mit Nussbaumholz ausgestattete Innenbereich wird durch die breiten Decksalon-Fenster in Licht gebadet. Im ganzen Boot sind edle Materialien zu finden. Hochwertige Verarbeitungen in der Pantry und der Nasszelle, Details aus Edelstahl, weiß lackierte Möbel und reiche Polsterungen, wie sie in dieser Bootsklasse noch nie dagewesen sind. Die Sun Odyssey 44 DS steht ganz klar auf einer höheren Stufe.

En el interior, las amplias ventanas Deck Saloon bañan de luz el interior de madera de nogal. Por todas partes destaca la calidad de sus materiales. Las encimeras de gran calidad de la cocina y los baños, los detalles de acero inoxidable, los armarios laqueados en blanco y la lujosa tapicería corresponden a un barco de mayor categoría. El Sun Odyssey 44DS es realmente un paso adelante.

Le ampie vetrature che abbelliscono il ponte inondano di luce gli interni color noce. Ovunque abbondano materiali preziosi. I piani di alta qualità della cucina e dei servizi igienici, i dettagli in acciaio inox, gli armadietti bianchi laccati e la pregiata tappezzeria sono assolutamente inediti tra le imbarcazioni della sua classe. Il Sun Odyssey 44DS è davvero un passo avanti.
