

Tough engine. Tough warranty

No other manufacturer offers:

- 3-year non-declining factory-backed warranty.
- 3-year industry-exclusive corrosion warranty.
- Support from the largest network of Authorized Mercury Dealers.

Mercury 150hp FourStroke Outboard

Horsepower	150
Max RPM (WOT)	5000-5800
Engine Type	In-line 4 Cylinder, 8-valve (SOHC)
Displacement	183 cu in (3000cc)
Induction System	Performance-Tuned Scroll Intake Manifold
Fuel System	Multi-Port (EFI) Electronic Fuel Injection
Fuel Requirements	Unleaded Regular 87 (91 RON)
Alternator	60 Amp/756 Watt Belt-driven
Gear Ratio	1.92:1
Dry Weight*	455lbs (206kg) L 465lbs (211kg) XL, CXL
Steering	Mechanical, Hydraulic, or Electro-Hydraulic Power (duals only); Big Tiller
Shaft Length	20 in (508mm) L 25 in (636mm) XL, CXL

The powerful new
Mercury 150hp FourStroke

Perfect for Repower

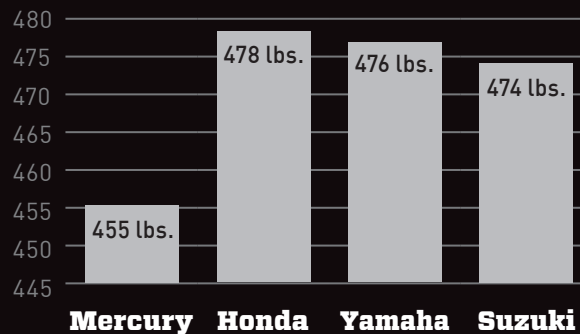

**Light.
Versatile.
Durable.**

Boaters spoke and we listened.

The new Mercury 150 FourStroke is the toughest, smallest, and lightest 150hp four-stroke engine in the world. In other words, another game-changing outboard from Mercury.

150hp FourStroke Weight vs. Competition

Only 24 lbs heavier than a 150hp OptiMax DFI two-stroke

- At 455 lbs. the new 150hp FourStroke is perfect for older transoms not designed for the weight of heavier fourstroke alternatives.
- The 3.0L displacement is best-in-class and delivers outstanding hole shot and acceleration.
- Physically smaller than other 150hp outboards, it has the lowest tilt arc and transom well intrusion versus the competition.
- Compatible with dual cable or hydraulic steering, mechanical control systems and can display data on existing analog or new SmartCraft instrumentation.
