for immediate release

## THE NEW QUICKSILVER ACTIV 855 CRUISER: OUR BLUEPRINT FOR FUN

Quicksilver launches the Activ 855 Cruiser, its largest, most elegant model yet built on the cornerstones of safety, comfort, style and true versatility. Designed for offshore and inshore voyages (CE Category B) and suited for 10 persons, it is the ideal boat to take out to the sea, explore local rivers and lakes. With the choice between a single and twin outboard engine, and various inboard engine installations, it offers all power options to meet the consumer's preference.

The Quicksilver Activ 855 Cruiser demonstrates its excellence by:

- Optimal circulation around entire boat and use of cabin space thanks to the slightly asymmetric positioning of cabin
- Maximum use of cockpit space achieved through a sliding bench seat and reconfigurable seating including a sun lounge extension
- An ample cabin with 360 degree visibility, a large sliding door connecting the cabin and cockpit area and an additional side sliding door for easy access to the foredeck
- Best in class dinette convertible to U-lounge, opposing seating for dining, forward facing seating and third berth
- Private master "island" berth with side windows in the hull and hanging locker and private aft berth with large hull side window
- Head/shower compartment with Standard sea water toilet
- Multiple engine options: single or twin outboard up to 400 HP and sterndrive gas/diesel installations up to 221 kw

The model will also be available as SMART Edition, featuring a colored hull, a foredeck sun lounge cushion; extra cabin comfort by added cockpit lighting, shorepower, a water heater, a refrigerator & microwave as well as extra cockpit comfort with a port bench seat, cockpit table, sun lounge, hot and cold cockpit shower and sun awning. This edition includes those options that are most frequently selected by our customers at a competitive price and high availability.

With the additional 6 optional packs the Activ 855 Cruiser can be tailored to meet every individual need.

The Activ 855 Cruiser will be presented for the first time at Genoa boat show in October. After that it will be introduced in Paris, Düsseldorf, Stockholm and Oslo.

European Marketing Manager Fedra Generini said: "after the successful launch of the Activ 705 Cruiser, winner of the Motorboat of the Year 2013 award, we are thrilled to introduce the Activ 855 Cruiser. This boat is exemplary for beautiful functional design, class leading use of space. The reconfigurable modules will make the consumer feel at home on any type of journey".

## General Specifications

Length Over All (M)	8.91
Beam Maximum (M)	2.98
Weight (Kg)	2713 OB /3153 IB
